Title

CERTIFIED LAND CORNER

No. 45

History of corner establishment since Original Government Survey

G.W. Hart shows this section corner as being existing in his 1855 Plat of Glendale.

Description of corner evidence found:

The corner was set on line with the N1/4 and the N1/16NE and at a distance from the N1/16NE equal to the distance between the N1/4 and N1/16NE. The distances, North from this corner to the E1/4 of Sec. 10 and South to the SE of Sec. 15, fit the original government survey very well. This corner also fits for alignment the North line of the NW1/4 of Section 15.
