**History of corner establishment since Original Government Survey**

Fred Holden was at this corner in April of 1902.

Description of corner evidence found:

In my research I was led to believe that Blencoe either found or set a stone at this corner, but our field search did not turn up any old marker. Set the corner at a distance from a stone at the E1/16NE, equal to the distance between the E1/16NE and the East 1/4 corner, and on line with these two corners. Monumented this corner with a Harrison marker.

Description of corner and witness monuments, references and accessories used to perpetuate the original or re-established location of this corner:
