History of corner establishment since Original Government Survey

Fred Holden was here in August of 1911 and states in his notes that there is an old stake in stone pile.

Description of corner evidence found:

Found an unrecorded well point in pile of stones. Accepted as corner as it fits Holden's distance to W¼ very well. History of the well point is unknown, but stone pile seems to be one and the same as referred in Holden's survey of 1911.
