

## **Radon**

**Radon is a naturally occurring and odorless gas and is the second-leading cause of lung cancer.**

**Radon has been detected at unsafe levels in homes throughout Monroe County. Contact the Monroe**

**County Health Department at 608-269-8666 for information on how to test your home, and how to take action if your home has been found to have high levels of radon. Kits are available for 10 dollars.**
