Reg. Land Surveyor, S-1744 Title

History of corner establishment since Original Government Survey

No known recorded history since the original government survey.

Description of corner evidence found:

Accepted fence corner as best available evidence of the corner.

The original survey notes call for a distance of 2418.24 feet between the N 1/4 corner of Sec. 7 and the NW corner of Sec. 7, and a distance of 2640 feet between the N 1/4 corner of Sec. 7 and the NE corner of Section 7. We measure a distance of 2623'± between the N 1/4 corner and the NE corner of Sec. 7 and a distance of 2540'± between the N 1/4 corner and the NW corner of Sec. 7. It appears the original survey made an error of approximately 2 chains between the N 1/4 corner and the NW corner of Section 7. We rough measured between the N 1/4 Sec. 7 and the NW corner Sec. 7 to verify our computed distance between them and found it to be a correct distance.

Description of corner and witness monuments, references and accessories used to perpetuate the original or re-established location of this corner:
