CERTIFIED LAND CORNER

History of corner establishment since Original Government Survey

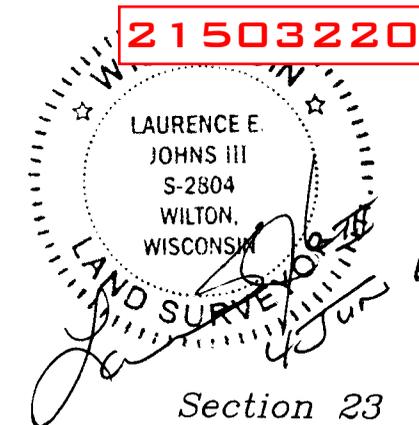

Henry Maddin set this corner in January 1847.

Description of corner evidence found:

No bearing trees of record were located.
 The North/South location of this corner was determined by the Fence coming in from the West, it does make a slight bend at the bottom of the hill, but that is because of the creek location. The fence to the East is approximately 20 feet South of the Section line for its entire length, which the landowner to the South had confirmed to me verbally.
 The East/West location is an extension of the West line of the NW1/4 of Section 23. Which does match occupation at the W 1/4 Corner of Section 26.
