History of corner establishment since Original Government Survey
 Webster Kenyon, while surveying a road was here in November of 1956. Henry Schroeder was here in January of 1895 and again in June of 1897. Fred Holden was here in November of 1905.

Description of corner evidence found:

I accepted the intersection of the centerline of 23rd Avenue with a fenceline projection from the West. This location fits a call in the Original Notes for the start of a spring Northwest of here very well.
