History of corner establishment since Original Government Survey

No known recorded history since the original government survey.

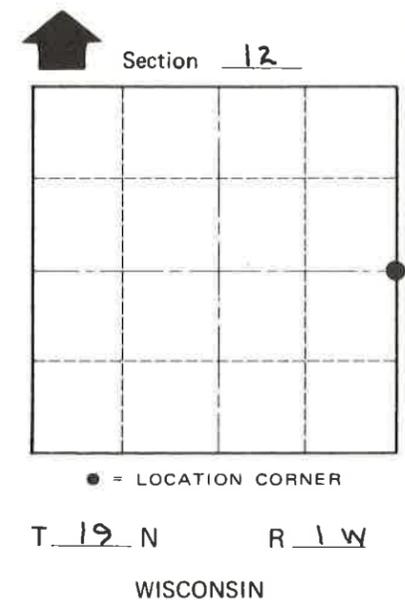

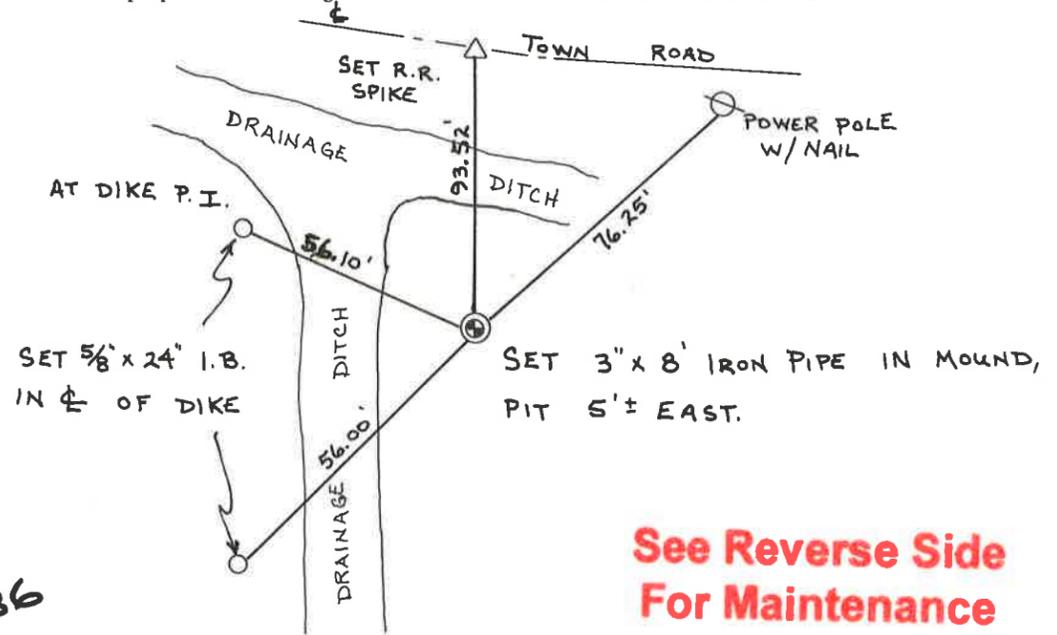

Description of corner evidence found:

Found a 4"x4"x4" wood post, the same as found at the NE corner of Section 12, and accepted it as the corner as it fits other Section data very well. Replaced the wood post with a 3"x8" iron pipe. It is possible that Kennedy, a surveyor from Jackson County during the early 1900's, may have set the wood post, as he did some surveying in this area.

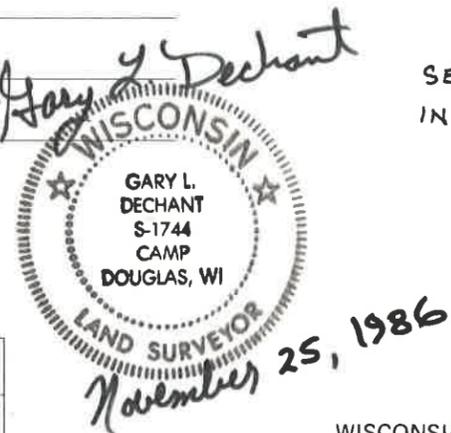

Description of corner and witness monuments, references and accessories used to perpetuate the original or re-established location of this corner:
