**CERTIFIED LAND CORNER**

History of corner established since Original Government Survey

The 1940's McCoy boundary notes show a corner at this location

Description of evidence found

On November 21st, 2012, Anderson Engineering of Minnesota located the McCoy monument, a 4 inch U.S. Army Corps of Engineers survey control mark set in concrete. The location of the McCoy monument grossly disagrees with the section and therefore was not accepted. On May 17th, 2013, Anderson Engineering of Minnesota set a 30 inch Berntsen aluminum dig monument with a 3 1/4 inch aluminum cap, stamped "FORT MCCOY BOUNDARY" "2013" "ANDERSON ENG. OF MN." The monument was set midway and online between the south quarter corner and southwest corner of Section 16.
