CERTIFIED LAND CORNER

History of corner established since Original Government Survey

The 1940's McCoy boundary notes show a corner at this location.

Description of evidence found

On December 3rd, 2012, Anderson Engineering of Minnesota located the McCoy monument, a 4 inch U.S. Army Corps of Engineers survey control mark disk set in concrete 0.8 feet above grade. The monument grossly disagrees with the section and therefore was not accepted. On April 17th, 2013, Anderson Engineering of Minnesota set a 30 inch Berntsen aluminum dig monument with a 3 1/4 inch aluminum cap, stamped "FORT MCCOY BOUNDARY" "2013" "ANDERSON ENG. OF MN". The monument was set midway online between the west quarter corner and the center of Section 21.
